Novelist and cultural commentator C.P. Snow was a large and controversial presence in his lifetime but his work has been largely neglected since his death in 1980. This is the first 21st-century book to offer a clear, informed and sympathetic survey of all his novels and major non-fiction books and to affirm their importance for the world today.

I set forth and discuss I.I. Rabi's views on the nature of science and society, focusing specifically on Rabi's views on science and government, science and education, and science and religion. I also explore the influence of Rabi and C.P. Snow on each other. In the 1960s, Rabi set forth his mature and boldest positions, advocating science as the center of education and science as the ...

The latter are to be understood as structural elements of a new cultural grammar able to make the late modern world intelligible. In particular, compared to the original Goethean project, but also to C.P. Snow's idea of unifying the "two cultures", the fields of morphological culture that are the object of this glossary have profoundly changed.

C.P. Snow's "Strangers and Brothers" series, published between 1940 and 1970 and following 1st-person protagonist Lewis Eliot and his friends, family and acquaintances from 1914 through the 1960's, begins with "Time of Hope" (first published in 1949--not the first published but the first in the chronological sequence of the narrative).

Time of Hope (Strangers and Brothers, #1) by C.P. Snow

In his reflections on the divide between science and the humanities, C.P. Snow made only passing reference to the Cold War context of his epoch. Yet great challenges to science and its impact on human society were being played out in political arenas far from the protected academic enclave in which Snow lived and wrote.
