Welsh Crafts Coracle The
A coracle, or a "cwrwg" as it was originally named in Welsh, is a small one-person boat made out of woven wood and a waterproof covering. They were used in the UK over 2000 years ago, dating back to pre-Roman times, and they are still used today – most commonly for fishing. Boats of this kind have been built and used by different cultures around the world for thousands of years.

The Coracle (Welsh Crafts): Jenkins, J Geraint ...
The coracle has been in use in Wales since the 7th century. Today, coracles are used along the Towy River in southwest Wales by sport fishermen angling for salmon and sea trout. They are propelled with a paddle held in two hands over the bow, in a figure-8 movement. Coracles are very light — the hull is painted canvas over wooden strips.

Coracle - International Small Craft Center
Coracle - the traditional Welsh fishing vessel Most often spotted bobbing on the Tywi and Telfi rivers, coracles are little one-person boats made from woven willow. They've been used by fishermen in Wales since pre-Roman times - Julius Caesar liked them so much he's said to have employed them in his invasion of Spain.

Traditional Welsh craft activities | Visit Wales
Coracle - the traditional Welsh fishing vessel Specifically designed for operating in swiftly flowing streams. Evidence of coracles dates back to the early Bronze Age, though the first clear description of the craft does not appear in texts until 1188. Early coracles consisted of a basketwork frame covered in animal hide.

The Coracle - a Traditional Lightweight River Craft
The coracle is a small, lightweight boat. They were used in Wales, parts of Western and South West England, Ireland, and Scotland The word is also to describe similar boats from India, Vietnam, Iraq and Tibet. The word "coracle" comes from the Welsh word cwrwg. This is related to the Irish and Scottish Gaelic word currach. It is recorded in English as early as the 16th century. Other old English spellings include corougle, corracle, curricle and corcile.

Coracle - Simple English Wikipedia, the free encyclopedia
The coracle is a small, keel-less boat with very little draft, and is usually light enough to be carried by one person. The name comes from the Welsh word "cwrwg". There is evidence of the use of coracles from the early Bronze Age, and perhaps as far back as the Ice Age.

Coracle making | Heritage Crafts Association
Coracles (from the Welsh "cwrwg") have a history dating back thousands of years. The coracle was originally covered with animal skins and in some countries they are still made this way. In Wales they are now skinned with calico which is waterproofed using a bitumastic paint a Coracle on the Telfi River in Wales

A coracle is a small, rounded, lightweight boat of the sort traditionally used in Wales, and also in parts of the West Country and in Ireland, particularly the River Boyne, and in Scotland, particularly the River Spey. The word is also used of similar boats found in India, Vietnam, Iraq and Tibet.

Coracle - Wikipedia
The frame of the coracle is constructed of woven willow shoots or nailed wooden slats. A wooden thwart (bench) spans the middle of the boat, and adds rigidity, as well as furnishing a place for a handle to carry it. The coracle is used in swift flowing rivers, and many times has flat bottoms to navigate the shallow waters.

How to Build a Coracle - PrepperFortress
A small boat madeof wicker-work, like the Welsh coracle, and covered with rawhides. (Isidor. Orig. xix. 1. 26.)The illustration is given by Scheffer(Mil Nav. p. 810.), from an old MS.of Vitruvius. The lines down thesides, which are more distinct in theoriginal, show the seams where thehides are sewn together.
